

# Falling Forever

coldrain

You just said  
You got a know a hero  
When all you really know is funk up and flatten all kinds of foes  
When you're lost and by yourself  
You let the background get fucken inside

How can you become so blind  
Oblivious to all your flaws  
"I'm not crying"  
Blah blah blah  
How can you become so lost  
You needed somebody else

With you I see no more...

You're falling forever  
Deeper into the hole you made  
When you hit the bottom  
No one can save you but yourself  
Now it's time for you to realize  
You got to fly

I've had enough  
Instead of watching you take on  
We can and throw it all instead? By strain?  
What a fucking waist

How can you become so blind  
Oblivious to all your flaws  
"I'm not crying"  
Blah blah blah  
How can you become so lost  
You needed somebody else

With you I see no more...

You're falling forever  
Deeper into the hole you made  
When you hit the bottom  
No one can save you but yourself  
Now it's time for you to realize  
You've gone too far

Like the plague  
Spread your countless lies  
Like a snake paralyzed  
Like a worm underneath my skin  
You're a parasite

Falling forever  
Deeper into the hole you made

You're falling forever  
Deeper into the hole you made  
When you hit the bottom  
No one can save you but yourself  
Now it's time for you to realize

You got to fly, fly

You just said

You got a know a hero

When all you really know is fuck up and flatten all kinds of foes
