

Never Look Away

coldrain

Close your eyes, maybe then
You'll start to see what you really need
The choice is yours to believe

Stop with all of your excuses
Why is it you waste your time while wasting mine
When you know you only get a chance to
Live your life so why live a lie

Just go throw it all away
Leave without the answers
But what if there is so much yet to know?
Could you still give it away?
Live the rest of your life wondering
What if you had never looked away?
So never look away

oh no oh no
I think you have it all so wrong
There comes a time you just can't runaway
A simple answer to a simple question
(Go!) Just wipe the dirt up off your face
And stand up once again
(Go!) There comes a time you just can't runaway
A simple answer to a simple question
(Go!) Just wipe the dirt up off your face now

It's time for you to make a choice
Stand up and fight or wave the flag
If your not giving up
Show me what you've got

Just go throw it all away
Leave without the answers
But what if there is so much yet to know?
Could you still give it away?
Live the rest of your life wondering
What if you had never looked away?

What if? what if you just try
What if? what if you
Your fate is in your hands
So never look away

Just go throw it all away
Leave without the answers
But what if there is so much yet to know?
Could you still give it away?
Live the rest of your life wondering
What if you had never looked away?
So never look away
Just never look away
