

# Six Feet Under

coldrain

Is this the way that it feels inside when you loose your mind?  
Am I going crazy?  
Is this the way that it feels to cry a hundred times  
And never make a sound?

It's all inside of your head!  
(Don't let it get to you!)  
It's all inside of your head!  
(Don't let it get you!)  
It's all inside of your head!  
(Don't let it get to you!)  
It's all inside of your head!

Everytime I try to see  
See outside the lines  
I see you staring back at me  
telling me there's so much more  
Then all I know

I gave it everything, everything of me  
(Everything of me!)  
But I'm still buried deep underneath the thoughts that cover me  
I gave it everything, everything of me  
(Everything of me!)  
But I'm still waiting for the light to show  
If I stop breathing...  
Will you save me?

Is this the way that it feels inside when you lose your mind?  
Am I going crazy?  
Is this the way that it feels to cry a hundred times?  
But I'm still here... SIX FEET UNDER

It's all inside of your head!  
(Don't let it get to you!)  
It's all inside of your head!  
(Don't let it get you!)  
It's all inside of your head!  
(Don't let it get to you!)  
It's all inside of your head!

Why is it we bleed?  
Everytime we feel the need to breathe  
If only we could see  
What our futures hold is there still hope?

I gave it everything, everything of me  
(Everything of me!)  
But I'm still buried deep underneath the thoughts that cover me  
I gave it everything, everything of me  
(Everything of me!)  
But I'm still waiting for the light to show  
If I stop breathing...  
Will you save me?  
Will you save me?  
Before... I start... suffocating!

I gave it everything, everything of me  
(Everything of me!)  
But I'm still buried deep underneath the thoughts that cover me  
I gave it everything, everything of me  
(Everything of me!)  
But I'm still waiting for the light to show  
If I stop breathing...  
Will you save me?  
Will you save me?  
WILL YOU SAVE ME?!!!
