

The War Is On

coldrain

Lie after lie
The truth disappears by the lies
Blinded by pride
And losing a sight whenever questioned all the answers
Can't you see it's time to draw the line

Before all that's left is
Nothing but the lies
Open your eyes

We can't breathe, we can't bleed
Surrounded by the enemy
The war is on, the war is on
We can't eat, we can't sleep
Until we make them scream defeat
The war is on

The war is on
So before I tell you shut up
Stand your ground
And never give up
Don't give up

We will not die young
With the hole in our hearts
There is no salvation
We will not die young
Until the battle's won

We can't breathe, we can't bleed
Surrounded by the enemy
The war is on, the war is on
We can't eat, we can't sleep
Until we make them scream defeat
The war is on

When darkness turns to light
Will we see ourselves and know,
We are still alive?

We can't breathe, we can't bleed
Surrounded by the enemy
The war is on, the war is on
We can't eat, we can't sleep
Until we make them scream defeat
The war is on

So let us say
The war is on
So let us say
The war is on
So let us say
The war is on
The war is on
