

Boomerang

Cole Swindell

Girl you got my days and my mind mixed up
Last night we were on fire
Now I'm laying here wishing it is what it was
And thinking love is a liar
The way you dance in and out of my hands
Ain't nothing I can do but hold you when I can

You're like a boomerang
You like leading me on then you leave me alone
Aw, baby why, why you like a boomerang
Flying out of my arms off into the dark
Then you back again, like a damn boomerang

Every time I wonder where you are now
I get to looking out the window
Knowing you know right where I can be found
And how to keep me from letting go
Its hard to get you out of my head
With your every now and then, crashing in my bed

Like a boomerang
You like leading me on then you leave me alone
Aw, baby why, why you like a boomerang
Flying out of my arms off into the dark
Then you back again, like a damn boomerang

You're like a boomerang
You're cold, you're hot, you here then you not
Here you come now
Like a boomerang
I cant lock the door cause I cant wait for more
Give me some more
Boomerang
You like leading me on then you leave me alone
Aw, baby why, why you like a boomerang
Flying out of my arms off into the dark
Then you're back again, like a damn boomerang

Yeah you're way to good at this game
Aw there you go, but I know you'll be back, you little boomeran
g
Here you come again
