

# The Way You're Lovin Me Now

Cole Swindell

I knew when the seatbelt come undone  
And I knew when you would flip the console up  
And move my daddy's gun

I knew when the road turned to dirt  
The way you were in the clear  
You went to pullin' on my shirt  
Poppin' buttons in my beer

You're like a wild fire  
In a runaway wind  
I'm just a silver ride cowboy  
Who tryin' to rope you in

When you're lookin' that way  
It ain't much left to say  
So baby do your thing

The way you're lookin' in my eyes  
With your hair falling down  
Way out here high on this hill  
With the lights off and the back drop of our little town  
Baby it ain't no way I'm ever coming down  
From the way you're loving me now  
The way you're loving me now

I've been caged up for a long, long time  
And you were saving it all up  
For a night like tonight

And I'm just the lucky one  
To have you come over done  
Kissing me, loving me  
Later don't look for me, girl

The way you're lookin' in my eyes  
With your hair falling down  
Way out here high on this hill  
With the lights off and the back drop of our little town  
Baby it ain't no way I'm ever coming down  
From the way you're loving me now

Baby there ain't no way, no how  
I'm never gonna slow you down  
From the way you're loving me now

The way you're lookin' in my eyes  
With your hair falling down  
Way out here high on this hill  
With the lights off and the back drop of our little town  
Baby it ain't no way I'm ever coming down  
From the way you're loving me now  
I love the way you're loving me now  
The way you're loving me now
