

# Mes Amis (We Can Party)

Colette Carr

(2x):

You got cups, we got drink  
You got love, so do we!  
Mes amis, we can party!

Hop up out the prius like it was a phantom  
We know that you seen us were the fucking anthem  
Sipping on a budlight like it was a magnum  
You know what I mean, turn me up a bit!  
Wanna see your hands up, like I got a handgun  
You doin it gold plate, we doin it platinum  
Running with my team, killing with my clique  
Ru-running with my team, killing with my clique.

We been living life upgraded  
Let me turn it up to amazing!  
You brought the kick, I brought the base  
Let me here you say, woo!

(2x):

You got cups, we got drink  
You got love, so do we!  
Mes amis, we can party!

We be on that freegame, all hour access  
Underneath the freeway, feeling like a bad bitch  
I'm a city local, we don't need an address  
You know what it is, you know what I mean!  
Everyday madness, like it was a habit  
Stunning on tricks yeah, you can call it magic  
Running with my clique, killing with my team  
Running with my clique, yeah, killing with my team

We been living life upgraded  
Let me turn it up to amazing!  
You brought the kick, I brought the base  
Let me here you say, woo!

You got cups, we got drink  
You got love, so do we!  
Mes amis, we can party!

I picture, we own it  
Run this world, we own it  
Mes amis, count to three  
Hide and seek, come find me!  
Je ne sais quoi who we are  
Avant-garde, Colette Carr.  
Mes amis, count to three  
Hide and seek, come find me!
