

Static

Colette Carr

Oh, when we go numb
Oh, when we come down
High up on this chasin', hardly moving but it feels right

Drift away
The haze slows down the pulse
Latency
A mind of cruise control

What you want?
What you need?
Well I'll give you all or nothing
What you want?
What you need?
Is what I've got, trust me

Static, static, static, moves, oh
Static, static, stuck on you
Static, static, moves, oh, oh

We escape
We're lying on the moon
Stay awake
To see the naked truth

What you want?
What you need?
Well I'll give you all or nothing
What you want?
What you need?
Is what I've got, trust me

Static, static, static, moves, oh
Static, static, stuck on you
Static, static, moves, oh, oh

Oh, when we go numb
Oh, when we come down
High up on this chasin', hardly moving but it feels right

Static, static, static, moves, oh
Static, static, stuck on you
Static, static, moves, oh, oh
