

# We Do It Primo

Colette Carr

Somewhere only we know, somewhere only we know  
Meet me at the cross street corner by the grove  
Cooking up ideas like my brain is on a stove  
Tryna keep it hush can you keep it on the low  
I'm talking about the place only only we know  
Thunderbird speed in my rearview mirror  
Leave it all behind take the wheel disappear  
Rucksack packed how much longer till your here  
Called to say your Far'East better move it rocketeer

We do it primo, we do it primo  
We do it primo, just meet me at the top  
Somewhere only we know  
We do it primo, we do it primo  
We do it primo, see the secrets that I got  
Somewhere only we know

You can call me NASA cause we about to blow  
I'm talking about the place only only we know  
Swiver our own way just ignore the dotted line  
My face is like a page so you can read my mind  
We don't need to talk when our bodies wanna mime  
My hearts a 10k racing beats double-time  
Forget about the map now I'm lost within your eyes  
Tripped up feeling frank spelling out the fear inside

We do it primo, we do it primo  
We do it primo, just meet me at the top  
Somewhere only we know  
We do it primo, we do it primo  
We do it primo, see the secrets that I got  
Somewhere only we know

Imma gonna need another minute  
You're about to be up in my business  
Sweeter than vanilla you're delicious  
Slayin all of this like it was Christmas  
Wishin that forever was existent  
At least we got to see and got to witness  
Hanging by a thread I need a hero  
So why don't we go, somewhere only we know  
Somewhere only we know, somewhere only we know  
Somewhere only we know, somewhere only we know

We do it primo, we do it primo  
We do it primo, just meet me at the top  
We do it primo, we do it primo  
We do it primo, see the secrets that I got  
Somewhere only we know  
Somewhere only we know  
Somewhere only we know  
Somewhere only we know  
Somewhere only we know
