

# She Loves The Way They Love Her

Colin Blunstone

She stands by the lights  
After put on the audience  
Smile on her face, just taken into everybody

She loves the way they love her  
(The love her)  
She loves the way they love her  
And she smiles  
She loves every sweet talking line  
Oh...

Then the smooth talking baby  
Blessed man from the management  
Trips on the wire  
As he's paying her a compliment

She loves the way he loves her  
(He loves her)  
She loves the way he loves her  
And she smiles  
She loves every sweet talking line  
Oh...

She loves the way he loves her  
(He loves her)  
She loves the way he loves her  
And she smiles  
She loves every sweet talking line  
Oh...

Crying, dying, sighing, whining, shining in the  
microphone  
Dreaming dreams of future time  
While she and me are all alone

She loves the way I love her  
(I love her)  
She loves the way I love her  
And she smiles  
She loves every sweet talking line  
Oh...

Running my hands through her hair  
And knowing she'll always be there

Oh, she loves the way that I love her  
She loves the way they know she loves her  
She loves the way he loves her  
She smiles  
She smiles  
She loves the way I love her

Ooh, I love her, I love her, I love

She loves the way I love her  
That's the way I love her
