

# Can't Take This Town

Colin Hay

There's a woman in the mirror fixing her lips  
There's a man in the bathroom looking for tips  
I park the car and no-one to pay  
And one pizza later it's towed away

I can't take this town  
I just don't believe it  
I can't take this town  
I better love it or leave it  
I can't take this town  
I just don't believe it  
I can't take this town  
I better love it or leave it

Sitting eating dinner just the other day  
Not my friends I didn't know what to say  
A woman leaned over said you gotta have hits  
And all I could do was stare at her

I can't take this town  
I just don't believe it  
I can't take this town  
I better love it or leave it  
I can't take this town  
I just don't believe it  
I can't take this town  
I better love it or leave it

Caught in a crossfire a child goes down  
No-one saw a thing or heard a sound  
Life is cheap or so it would appear  
Try telling his mama she can't stop the tears

I can't take this town  
I just don't believe it  
I can't take this town  
I better love it or leave it  
I can't take this town  
I just don't believe it  
I can't take this town  
I better love it or leave it

I can't take this town  
I just don't believe it  
I can't take this town  
I better love it or leave it  
I can't take this town  
I just don't believe it  
I can't take this town  
I better love it or leave it
