

Dream On (In the Night)

Colin Hay

I don't mind love in the morning
I don't mind it late at night
Make love on the weekend yeah
Always makes me feel alright
Doesn't matter about the weather
It's always still fun
I like it when you wear your leather
And it's one on one

Don't stop what it is you're doing
You know I love your little games
Don't stop what it is you're doing
Your body's driving me insane

I don't mind love in the summer
Yeah underneath the sun
Don't mind if it's cold in winter yeah
I can take it on the run
Let's stop into this hotel
Let's make some faces turn
Let's laugh until we're senseless
And our bodies will burn

Dream on in the night
Make me feel alright
Dream on in the night
You're my woman

I love it when you call me
You say you'll wait for me tonight
You move in slow motion towards me
From darkness into the light
Let's do it on your back step
Where the air is clean and free
You've got a ladder in your fishnet
And it's because of me

Don't stop what it is you're doing
You know I love your nasty games
Don't stop what it is you're doing
Your body's driving me insane

Let's drive towards the sunset
Let's make these four wheels turn
Let's hope this road is endless
And our bodies will burn

Dream on in the night
Make me feel alright
Dream on in the night
You're my woman

Dream on in the night
Make me feel alright, you know my weakness
Dream on in the night
You're my woman

Don't you dare get up
Don't you dare get up
Why don't you stay forever,
Or at least tonight?
Will you leave me never?
And don't you think it's,
it's kind of, it's kind of hot tonight?
