

# Gathering Mercury

Colin Hay

Free falling floating through this dream  
I could hear a strange calling from behind the scenes  
I could not open my eyes I was barely alive  
Is this all I've been and all I am and will be

Until I cross over  
One life is all I can see  
Until it's all over  
I'm gathering mercury

Free falling over an endless sea  
I could feel my heart stalling getting harder to breathe  
As the boat casts away should I go or stay  
Is this all I've been and all I am and will be

Until I cross over  
One life is all I can see  
Until it's all over  
I'm gathering mercury

Free falling now I want to sing  
I can hear my voice calling it will hear everything  
I cut myself free I crawled back to see  
All that has been and all there is and will be

Until I cross over  
One life is all I can see  
Until it's all over  
I'm gathering mercury

Until I cross over  
One life is all I can see  
Until it's all over  
I'm gathering mercury  
I'm gathering mercury
