# I Think I Know

**Colin Hay**

I think
I think I know
I think
I think I know I know I know
What you're thinking
I think it shows
Doesn't mean much to me
If people see right through me baby
Can you see me
Like I see you

I think
I think I know
I think
I think I know I know I know
Why I'm drinking
And I'm sure it shows
On my face
Don't you know you move me
Through the wire
You soothe me baby baby
Can you hear me
Like I hear you

I'm not gonna wait another hour
There's not enough hours in a day
I'm not gonna send you anymore flowers
Watch out I'm on my way

Doesn't mean much to me
If people see right through me baby
Can you see me
Like I see you
Don't you know you move me
And through the wire
You sooth me baby
Baby baby baby
You got me and I got you
