

Wash It All Away

Colin Hay

If my eyes they see only blindness
And everyone has nothing much to say
If I ask for a little cup of kindness
And people they all turn their heads away
If the pieces, they won't fit together
Because there's one thing I just can't find
I could wait for a change in the weather
Or let the rain wash it all away

Let the rain fall
And wash it all away

When I speak I hear only silence
Nothing seems to heal me any more
As I'm dreaming of far away places
I wake to someone knocking at my door
In the wrong place in the wrong situation
I must pick myself up one more time
I could try to see through foggy weather
Or let the rain wash it all away

Let the rain fall
And wash it all away
Let the rain fall down on me
And wash it all away

Let the rain fall

When the pieces they all fit together
Through the dark clouds the sun will shine
I could wait for a change in the weather
Or let the rain wash it all away

Let the rain fall
And wash it all away
Let the rain fall down on me
And wash it all away

Let it rain
Let it rain
