Saviour, saviour  
Saviour, saviour

Gotta get to the river, gotta make it to the other side  
Gotta get to the river, gotta make it to the other side  
Take me to the river, help me get to the other side  
Get me to the river, gonna make it to the other side

Fuck my saviour

Saviour, saviour  
Saviour, saviour

When I'm breaking and I'm shaking and I'm looking for the river  
side  
Shaking on this faking, help me get to the other side  
When I'm breaking and I'm shaking, trying to get to the other s  
ide  
Take me to the river, come on, take me to the other side

Fuckin' saviour  
Fuckin' saviour

Help me

Saviour, saviour  
Saviour, saviour

I gotta get to the river, gotta make it to the other side  
Nobody knows where the riverside will run  
Somebody saw the saviour down by the river  
Somebody tell me when the saviour comes

Where, where, where  
Where is that saviour?  
Where, where, beware

Where is that saviour?  
Where is that saviour?

Saviour, saviour  
Saviour, saviour

Fuckin', fuckin', saviour
