

Am I Getting Through

Collective Soul

My heart does stop
Where my soul begins
I'm not looking to start
I only want it to end

So call in your troops
Call the Calvary
Call whoever you like
But baby don't call me

Well tomorrow shall be better
Or at least that's the word you choose
But I've come to my own conclusion
Am I getting through to you

Lies so sure ..
With your cross hard facts ..
You got a reason for this
I got a reason for that

Well tomorrow shall be better
Or at least that's the word you choose
But I've come to my own conclusion
Am I getting through to you

All you've shown
Is carved in stone
The change is good you know

My heart does stop
Where my soul begins
I'm not looking to start
I only want it to end

Well tomorrow shall be better
Or at least that's the word you choose
But I've come to my own conclusion
Am I getting through to you
