

Breathe

Collective Soul

Down by the sea, I think I saw
Yeah, yeah, yeah, yeah, our love dissolve

So plant a little seed, soon it starts growing
Shed a little light then we'll be glowing
Hear a little tune then we'll start singing
Give a little love then love will start breathing

Out by the bay, I long to be
Yeah, yeah, yeah, yeah, a man of peace

So plant a little seed, soon it starts growing
Shed a little light then we'll be glowing
Hear a little tune then we'll start singing
Give a little love then love will start breathing

I'm gonna breathe, I'm gonna breathe love, yeah love
I'm gonna breathe, I'm gonna breathe love, yeah love

Yeah, I'm gonna take a deep breathe for you

Down by the sea, I think I saw
Yeah, yeah, yeah, yeah, our love dissolve

So plant a little seed, soon it starts growing
Shed a little light then we'll be glowing
Hear a little tune then we'll start singing
Give a little love then love will start breathing

Plant a little seed, soon it starts growing
Shed a little light then we'll be glowing
Hear a little tune then we'll start singing
Give a little love then love will start breathing

Breathe a little love, breathe a little love, breathe a little
love

I'm gonna breathe, I'm gonna breathe

Come on now people, come on now breathe
Come on now people, come on now breathe
Come on now people, come on now breathe
Come on now people, come on now breathe
