

Exposed

Collective Soul

You say you want some comedy
Well I'm not laughing no more
You say you need a remedy
I'm not your corner drug store

You took all of my money
You took all of my clothes
You took a little of everything
But it's you who's now exposed

You say you want some sympathy
Well I'm not drinking no more
You say you need some company
Ain't that what cables made for

You took all of my money
You took all of my clothes
You took a little of everything
But it's you who's now exposed

You say you need someone to talk to
You got some things to share
I think you need to find someone
Someone who really... cares

(2x):

You took all of my money
You took all of my clothes
You took a little of everything
But it's you who's now exposed
