

# Happiness

Collective Soul

Congratulations, oh baby I'm back again  
I'm loaded down with my god and my medicine

I know wisdom is change  
So why can't you function that way

Here I am flaunting my self control  
'Cause happiness is more than a kiss you know

I'm activating all your promises once again  
And pushing forth dear with the rage of my reverence

We could close our eyes  
And recklessly run on through  
Any space and time  
That we choose
