

# I Don't Need Anymore Friends

Collective Soul

I'm out of my head  
And it's not the way that I wanted to feel  
This loneliness and dread  
gets your attention, makes us real  
I'm going nowhere and it's slowly sinking in

I don't stand a chance  
Until you get me out of here  
I just don't have the will to pretend  
I'm running for the door  
Can you get me out of here?  
I really don't need anymore friends

Well turning it on  
It's getting harder and harder to do  
Well don't get me wrong  
That's dedication, good for you  
It's just your atmosphere that brings me to my knees

Not anymore  
No not anymore  
Don't take it bad  
Don't look so sad  
If I turn around and walk away  
Don't take it hard  
I'll try to play that part  
But I'm having such a bad day

And I'm not that much fun anyway

Not anymore  
No not anymore
