

# Over Tokyo

Collective Soul

\*tune down 1/2 step\*

chords:

Got a photograph  
of a smile  
taken way back when  
we could smile  
now this plane will take me  
where i don't know  
maybe....Tokyo  
'cause there's no memories over Tokyo  
and there's no hurting over Tokyo  
got a photograph  
of some tears  
taken presently  
with more tears  
now i'll search for happiness  
where should i go  
maybe....Tokyo  
'cause there's no memories over Tokyo  
and there's no hurting over Tokyo  
well attention, will this pain go away?  
my condition, well it's just not the same  
oh no no no no no
