

Head Spin

Collide

oh my my
there's a lot you could learn
when you're trying to get by
oh my my
there's a chance you'll get burned

here and now
object unwind
here and now
really makes my head spin
fall through the edge
fall from the sky
fall through the earth
really makes my head spin

touching the ground
get what you give
turning around
like a delicate alien
touching the ground
get what you give
coming down
like some kind of alien

here and now
object unwind
here and now
really makes my head spin
fall through the edge
fall from the sky
fall through the earth
really makes my head spin

where are you to go
when you're trying to get by
there's another chance that you'll get burned

here and now
object unwind
here and now
really makes my head spin
fall through the edge
fall from the sky
fall through the earth
really makes my head spin

here it is
so read the signs
all that you could know
all there is
you're first in line
really makes my head spin
soaring in oblivion
falling one by one
is this really all there is
really makes my head spin
all my wisdom

here and now
object unwind
here and now
really makes my head spin
fall through the edge
fall from the sky
fall through the earth
really makes my head spin
