

Modify

Collide

Can't stop thinking
That's all that matters
Eventually
Can't stop feeling
And re-arranging
That's all I'm thinking

Modify as I levitate
You can open the latch
But you'll never give in

Go on changing
That's all that matters
Behind the wall
Can't stop changing
That's all that matters
In the end

Modify as I levitate
When you open the latch
But you'll never give in
Can't stop dreaming
And re-arranging
That's all I'm thinking
Re-arranging
That's all that matters
Eventually

Modify as I levitate
You can open the latch
But you'll never give in
All you really need
All you really want
Anything you want to
Your secrets safe with me
