

Monochrome

Collide

i see threes
your tempting me
what a deal you see
your i see all
what a deal
lunacy in the yard
who do you think you are
i see all my increments in monochrome
who decides the weeks spin by
balancing the wheel
curious send me a sign

only us just passing through
only us just passing through
only love can reach the heart
only love can tear apart
only love can reach the heart
only love can tear apart

you lunacy in the yard
who do you think you are
i see all my increments in monochrome
who decides the weeks spin by
balancing the wheel
increments in monochrome

only us just passing through
only us just passing through
only love can reach the heart
only love can tear apart
only love can reach the heart
only love can tear apart
you only love can reach the heart
only love can tear apart

i see all my increments in monochrome
i see all my increments in monochrome
only love can reach the heart
only love can tear apart
i see all my increments in monochrome
only love can reach the heart
only love can tear apart
