

# Wings of steel

Collide

wind up your reasons  
demons and ghosts  
wind up your circuitry  
loves you the most

your wings on fire  
but you can't find them  
your wings are higher  
i've never seen them before

chasing the wings of steel  
chasing the ghost of time

wind up your circuitry  
loves you the most  
wind up your complicated  
chasing the ghost

your wings are tired  
you cannot get there from here  
where you aspire  
you cannot fly there from here

chasing the wings of steel  
chasing the ghost of time  
chasing the taste of life  
chasing the ghost of time

chasing the wings of steel  
chasing the ghost of time  
chasing the taste of life  
chasing the ghost of time

i've come so near  
yet so far

in the river of darkness there is a light  
in the middle of darkness there is a light

wind up your consequence  
fear will paralyze you  
chasing the wings of steel  
chasing the ghost of time  
chasing the taste of life  
chasing the ghost of time

i am walking in the light  
i am walking in the night
