

Every Second

Collin Raye

Well listen dear I think it's clear, we need to sit and talk
It seems you've got this notion I've been having second thoughts

Well I must confess in a way I guess that silly notion's true
'Cause every second you're not here I think of you

Every second, every minute, every hour of every day
Every second there's a thought of you that comes my way
So if you ask if I've had second thoughts I guess I'd have to say

"Every second, every minute, every hour of every day"

Now I propose we drink a toast and turn the lights down low
Put our favorite music on and hold each other close
Don't worry dear you'll always be here in my heart to stay
Every second, every minute, every hour of every day

Every second, every minute, every hour of every day
Every second there's a thought of you that comes my way
So if you ask if I've had second thoughts I guess I'd have to say

"Every second, every minute, every hour of every day"

Every second, every minute, I love you more and more each day
