Landing In Love

Can you feel that rush Makes the whole world hush Makes your flesh go flush You break a sweat Is your soul on fire With your hearts desire Out there on the wire Without a net

Does it take your breath Are you scared to death With one kiss We'll be risking it all If we dance this dance If we take this chance We'll be landing in love When we fall

It's an act of God It's against all odds And we hold lightening rods Up in the sky It's that leap of faith We all have to take But hearts don't have to break When they can fly

Does it take your breath Are you scared to death With one kiss We'll be risking it all If we dance this dance If we take this chance We'll be landing in love When we fall

If we dance this dance If we take this chance We'll be landing in love One more kiss, one more touch We'll be landing in love When we fall **Collin Raye**
