Get Off My Back

Everything was good, everything was fine We walked along that yellow line towards our future and our unity in the midst of life and scholarly

Our eyes filled with stories we'd never tell although we stumbled we never fell we saw the world as something that smelled we had our own version of hell

You should see my life today It's never sunny it's always grey and though I have my own way to wish all the sadness away

Get off my back Get off my back Get off my back Get off my back

Then you become infatuated with a crashing bore I've always hated I can't believe how my world degraded feels like I've been suffocated

You should see my life today It's never sunny it's always grey and though I have my own way to wish all the sadness away

Get off my back Get off my back Get off my back Get off my back

You should see my life today It's never sunny it's always grey and though I have my own way to wish all the sadness away

You should see my life today It's never sunny it's always grey and though I have my own way to wish all the sadness away

Get off my back Get off my back
