The Bottle

Don't go away I'm trying the best I can It's not easy to get out of this It reminds me every minute I breathe

It was going so well for us Maybe a little too much of parties Every time I needed a little bit more, and who's to blame me for that

The beer felt too soft, the booze was welcomed by my throat And ever since it has been more and more It's the most important thing for me

Make me understand what I have to do I can't stand this anymore The only things I care to do, is to fill my body with booze

I can't understand how you're pulling through For every lie that I've told you All those times I've stumbled in and throwing up in our bed All those times trying to make me stop And every time I disappoint you But this time I'm going to succeed or leave

Make me understand what I have to do I can't stand this anymore The only things I care to do, is to fill my body with booze It tears on my feelings for you It's the bottle I love not you Try to convince me that you are the only one

Make me understand what I have to do I can't stand this anymore The only things I care to do, is to fill my body with booze It tears on my feelings for you It's the bottle I love not you Try to convince me that you are the only one
