

## There'll Be a Time

### Colony 5

The last one to enter hell  
close the door and ring the bell  
Cause when we die; we do not end  
we regroup and fight again

And if we are to loose our way  
By mistake or by betrayal  
And be sent up to a god's care  
We will take the war over there

With the devil at our side  
And the moon as our guide  
We break the silent night  
And set the world alight

As we are falling down  
This is how we meet  
Preparing everything  
In the leap

There'll be a time  
When all the fights are fought  
There'll be a time  
When all the bribes are bought  
There'll be a time  
A time you will call peace  
There'll be a time  
When death will cease

And we are falling down  
This is how we die  
Preparing everything  
In the dive

There'll be a time  
When all the fights are fought  
There'll be a time  
When all the bribes are bought  
There'll be a time  
A time you will call peace  
There'll be a time  
When death will cease
