Color Me Badd

Oh, ah Oh, yeah, CMB, Once again it's on folks, Ah yeah, Sexual, exoticness One time for your mind, Two times for your soul. And this is J.B. ha, ha, ha... Come on, it's like, Come on it's like... Yeah! let'em know You're all alone I bet you're thinking to yourself Why your thighs Are sitting there by themselves You're the kind of girl To call me up and over coming fly And it don't intimidate me Your body is so slamming Girl I can't grab control 'Cause I'll be grabbing everything soft. Ooh... It's just so nice to kick it with someone who's sexuality, Says nothing but can I get you off, And I said, [Chorus:] Any day an night, anywhere is right, back of my jeep When I get you from the back, baby (back baby, yeah!) There's more cushion for the pushin' from the back. If I get you back tonight If I get ya' back tonight I wanna' make you come faster, faster I wanna' ride you to, here and after From the back Yo, ho ho ho (on the real deal) I think it's time for you and me to make love, (yeah, it's about that time) Wild and wet fantasy When were playing doctor baby I'll be Mister Freaky M.D I'll get your free full body examination, like the way the doctor suppose to be. Cause' baby you've got somethin' - somethin' so right (oh ya!) I can get so-oh, into you Pretty back, back, front of me You better grab, grab, hold on to me. Hold on to something to tight. Cause' I am about to give you something right You say you're just thinking about it How it makes you loose control (loose it baby, loose it baby) But pretty soon you'll be sittin' wet in your seat Hey baby that's OK, I'll just come over and see (come on, come on) Soak it up, soak it up, sponge it up, You can take a mike check on me. (yeah, baby) [Chorus x2] Oh, no no no damn. Girl, yes, give me all baby (all night long)

I wanna' love you from the back, baby I just want you to be you. [Chorus] Said I wanna' get you off... I wanna' make you come, here and after (oh...) Love you in the morning... Love you in the morning... Make you funk, funk, back, back Feels so right. Yes...
