## Let Me Have It All

**Color Me Badd** 

You have turned into a prayer I can feel you almost there Closer, closer to the top Lookin' down is quite a drop

Let me have it all Let me have it all Come on let me have it all Let me have it all

Hold no grudge from yesterday It got up and flew away I want my cake and eat it too Can't wait to stick my fork in you Make me feel just like a king Everything is everything

Come on let me have it all Let me have it all Let me have it all I've got to have it all

You have turned into a prayer I can feel you almost there You set up a barrier, yeah Don't ya know I'll marry you

Just to be near you is to be Let me have the rest of me Closer, closer to the top Lookin' down is quite a drop

You've got, got to Let me have it all Let me have it all Wanna let me have it all Let me have it all

Let me have it all Let me have it all Let me have it all
