

# You Don't Know Me

Color Me Badd

How do I live?  
How can I ever live my life  
When the only time I ever get to hold you  
Is in my dreams at night  
How can I go on  
When the only thing I need  
Is out of my reach  
When it's right in front of me

You put your hand in mine  
But I'm just a friend  
You think you know me?  
But I dream of you at night  
And I'll kiss your lips mama you don't me  
My heart is beating now  
I feel your touch  
It's keeping me insane watching love pass me by

Till it's gone away un mone comme on se'  
Not enough time To think about all things you are  
All the things I know that we could be  
Now I'm living each day passing time away  
Waiting for that moment when I see you face  
And this love is strong  
Hiding in my heart from you  
Just when you need it  
Running from the light... from the light

And this love is strong  
Hiding in my heart from you  
Just when you need it  
Running from the light  
Run away from the light From the light... From the light...
