

It's always you

Colorfactory

After all this
how can we still be friends
cut me a break
i'm not trying to fool anyone

you know you know
you never feel that way
anyway at all
you know you know
you never do the things
that you say
you know

and it's only you you you you
and it's only you you
it's always you
you know

after all this

how can we still be friends
cut me a break
i'm not trying to fool anyone

you know you know
you never feel that way
anyway at all
you know you know
you never do the things
that you say
you know

and it's only you you you you
and it's only you you
it's always you
you know
