

# We're Back

## Combat 84

We've seen 'em come and we've seen 'em go

But we're the boys who are in the know

We're back have you missed us?

We're back you could have f\*\*king kissed us

We're back been away a while

We're back with our combat style

Pretenders to our name

We're back we're in the game

We'll take you on and sort you out

'Cos that's what combats all about

We're back been away a while

We're back with our combat style

You want the real men?

We're back we're here again

You know what we're fighting for

We're back we're combat 84

We're back been away a while

We're back with our combat style
