All the Way Down

Commodores

You have broken me all the way down Down upon my knees And you have broken me all the way down You'll be the last, you'll see

Some fight you gave And I pushed you away From me

And in the morning when you turn in I'll be far to sea

And you have broken me all the way down You'll be the last, you'll see

And what chance have we got When you've missed every shot For me?

And in the morning when you turn in I'll be out of reach
And in the darkness when you find this I'll be far to sea

And you have broken me all the way down You'll be the last, you'll see
