

## Visions

Commodores

Searching my mind's wilderness  
So many faces I've seen  
Some are fighting for their lives  
While others fight for their dreams  
Some still don't know who they are  
Or where their road will turn  
Some are blind from hate and lies  
They've got so much to learn  
But I can see that one day  
One day a change is gonna come  
When all the world will live as one  
No need for lies, no no  
For the truth will be the light  
And everybody will see a love so bright

Visions in my mind (I see visions)  
Visions in my heart (I see visions)  
Visions in my soul (I see visions)

(There's no mountain) There's no mountain  
(Too high) Too high  
(And no river) Too deep to cross  
(Only love) Only love  
(Is the answer) Yes it is  
(We can get there) If we pay the cost  
But let me say truly  
Truly, I see changes  
I see wonders like I've never seen before  
Believers, and only the believers  
Can rearrange this world  
Make it stronger, yeah  
(We can make it)

We can make it a brighter day (I see visions)  
Visions in my heart, baby (I see visions)  
Can't you see? (I see visions)  
Visions from my soul, baby (I see visions)  
Come together (I see visions)  
We need each other (I see visions)  
Time for changes (I see visions)  
(Visions)  
We'll be so happy  
So happy

Despite the negatives of today, be positive  
I know we can make it  
It all depends on you  
And it all depends on me
