

Nihilistic

Common Enemy

All of my life I've always been an outcast
Always been a zero going nowhere fast
I've never had that many friends, never been too good with girls
Well I don't care about either and I hate this fucking world

[Chorus]

I will deny... I will defy... your society
I won't comply... with your lie... that shit's not for me

I don't believe in god, he makes no sense to me
I will not put my faith in something I can not see
Don't want to read your bible, your holy book is false
And I will not worship some guy nailed to a fucking cross

[Chorus]

Those people with their rules, you know I hate them all
Too many regulations, have my back against the wall
More new laws everyday, they expect me to abide
I thought that we had freedom, I guess that's a fucking lie

[Chorus]
