

## Punks Dead Your Next!

Common Enemy

It's not what u think it is, just another phase, I'm getting older

Every day and I still feel the same,

Wasn't here in your heyday that's not what it's about,

Get up front that's all there is the time is fucking now

Mainstream, rules, and ignorant kids have ruined it fucking all

,

Punk rock is on life support and I just wont let it fall

Punks dead, you're killing it, your next, I'll see to it

It's not what u think it is, just another phase,

I'm getting older everyday and I still feel the same,

Wasn't here in your heyday that's not what it's about,

Get up front that's all there is the time is fucking now!

It's not about the T shirts, stop wasting your fucking time,

It's not really worth it
