

A Place Where We Can Stay

Common Rider

There is more at stake
Than all my petty problems
Like the way that the moonlight
Sings its quiet logic
To the Florida coast
And the answering tide
And you're watching it with me
Like an angel by my side

And I know that I love you
Forever and a day
And I know that I found
A place where we can stay

There is more at stake
Than all my restless plans
Like the way that the heat of the day
Lingers in the sand
And you're feeling it with me
In the gentle night
You're like a dream come true to me girl
Trouble gonna be alright
