## **Angels At Play**

## **Common Rider**

Took me so long
Just to get your name
Like a kid trying to learn
The rules of the game
And now you ask,
Do I want you to stay?
Don't you know that in my heart
There ain't no other way?

Stay
Don't you go away
You and I, angels at play

You are like no one I have ever seen Got more style than a New York night Got more magic than the Northern Lights
