

## Set The Method Down

Common Rider

You want to see the blue print rip  
You want to see flames burning up the script  
You want to see the words you wrote  
Return to the pen, to the arm, to the heart and then  
That's the way fates come unsealed  
That's the way life and death's revealed  
First thing you must set the method down  
Next you mustn't pick it up and now  
Set the method down down  
So you said the words  
Set the method down down  
Still you're locked in stir  
You want to take those roadmaps off  
And let your violent little corners go soft  
And feel enmity for no one  
And forget exactly where you're going
