

## In Silence With My Scars

Communic

I'm lost with fever  
Drifting into this psycho-sphere  
I wish the stars could tell me  
Is this it, my last breath...all alone

I'm a master of denial  
Don't even try to convince me  
Am I conscious or lost  
Could this be my final day...here on earth

I'm taking a leap of fate  
Never to look back, or loose control  
I'm beyond despair, in silence with my scars

I'm falling - loosing control  
I'm falling - a desecrator

I'm lost with fever  
This task called life I failed  
I hear an echo from the unknown  
I cannot exclude these cynical ideas

I'm taking a leap of fate  
Never to look back, or loose control  
I'm beyond despair, in silence with my scars

I'm falling - without control  
I'm falling - a desecrator

I hear an echo from the past  
I cannot exclude these cynical ideas  
I'm heading into the unknown  
All my fears are now at peace...all alone

I'm taking a leap of fate  
Never to look back, or loose control  
I'm beyond despair, in silence with my scars

I'm falling - loosing control  
I'm falling - a desecrator

I'm leaving this planet earth  
I'm leaving
