## **Even In The Dark**

## **Company Of Thieves**

For those who work so hard Never see their children Never see their children grow Into the gifts they give them

This is life is all unknown Gotta listen to their laughter Everyone must be heard now Even in the dark

For those who seek no answers Keep it from the table Ignorance is eaten up When everyone must be fed

This life is constant hunger See it in the dreamers Believe in the believers of never-ending love An end is kind of love

Even in the dark Whoa... Even in the dark

Find your calling Even in the dark Find your calling

Find your calling Even in the dark Find your calling You gotta find your calling Even in the dark Everyone must be heard Even in the darkness

Even in the dark Even in the darkness Whoa... Even in the dark
