

# Firestorm

Conchita Wurst

Love is like a potion  
It's a chemical  
So lead me to the water  
Like an animal

But you  
You could never hold me  
I could never hold you down  
And I can't get enough

My heart is a firestorm  
And all that I needed was your flame  
And now that you've gone out of the door  
Tell me who-ooh-ooh could love you more  
My heart is a firestorm  
And all that I needed was your flame  
And now that you've gone out of the door  
Tell me who-ooh-ooh could love you more

Tell me who could love you more, who  
Who could love you  
Who could love you  
Tell me who-ooh-ooh could love you more

Love is like a river  
Let me drift away  
Skin on skin  
Don't wake me up again

'Cos you  
You could never hold me  
I could never hold you down  
And I can't get enough

My heart is a firestorm  
And all that I needed was your flame  
And now that you've gone out of the door  
Tell me who-ooh-ooh could love you more  
My heart is a firestorm  
And all that I needed was your flame  
And now that you've gone out of the door  
Tell me who-ooh-ooh could love you more

Tell me who could love you more, who  
Who could love you  
Who could love you  
Who could love you

My heart is a firestorm (firestorm)  
And all that I needed was your flame  
And now that you've gone out of the door  
Tell me who-ooh-ooh could love you more

Tell me who could love you more (who could love you baby)  
Who could love you  
Who could love you  
Who could love you

Tell me who-oooh-oooh could love you more  
(Ooh baby)  
Tell me who-oooh-oooh could love you more
