

My Lights

Conchita Wurst

My lights are brighter when I feel right,
It's my right to stand here in the spotlight,
Long nights of longing for salvation,
They're all gone cause I found my own solution,
I was trapped in a spiral moving downwards,
Lost track but today I'm going homewards,
I stand here with a fistful of new wishes,
Upright in the sunlight.

My lights are on,
My lights are on,
The past is gone,
The past is gone,
My lights are on,
My lights are on,
The doubts are gone,
And I have won.

I stand here just to tell you what it's all about,
A presentation of the details that I found out,
A brief summary of all the pain I've gone through,
I've found a remedy and now I'd like to tell you
It's one life and I am grateful
It's one life and we are here to,
Make a difference to the world of the cold hearted
It's time to get started

My lights are on,
My lights are on,
The past is gone,
The past is gone,
My lights are on,
My lights are on,
The doubts are gone,
And I have won.

My lights are on,
My lights are on,
My lights are on,
My lights are on,
My lights are on.

My lights are brighter cause it feels right
All of us here standing in the spotlight
Long nights of love and celebration
Upright in the sunlight.

My lights are on,
My lights are on,
The past is gone,
The past is gone,
My lights are on,
My lights are on,
The doubts are gone,
And I have won.

My lights are on,

My lights are on,
The past is gone.
