

Out Of Body Experience

Conchita Wurst

Come ready steady
Get your gun ready steady
'nition on you can never miss a green light
I won't tell nobody
What you do with your body
Where you go with your body cause you go right

Don't stop now
It'll happen before you know
Go for elevation

Shootin' off like a meteorite
Leave my body and I never come down
Your lovin' got me buzzin' all night
Super real and I'll never come down
An out of body experience
An out of body experience
Shootin' off like a meteorite
I will never come down

Drapes on a double bed
I know that you're very very high
For the many many waves you ride
Late with a bubble head
I want to be merry merry
Hunt for the enemy you can't hide

One can be solitary
Three is too many many
Two is just plenty and I feel right

Don't stop now
It'll happen before you know
You are my salvation

Shootin' off like a meteorite
Leave my body and I never come down
Your lovin' got me buzzin' all night
Super real and I'll never come down
An out of body experience
An out of body experience
Shootin' off like a meteorite
I will never come down

An out of body experience
An out of body, my body, out of body experience

Shootin' off like a meteorite
Leave my body and I never come down
Your lovin' got me buzzin' all night
Super real and I'll never come down
An out of body experience
An out of body experience
Shootin' off like a meteorite
I will never come down

An out of body experience

Super real and I'll never come down
I will never come down
