

Put That Fire Out

Conchita Wurst

Here we are
Whether we're near or far
Always rely on us
To fight for your cause accepting no loss
Soon you'll see
Never alone you'll be
We have the right to speak
But we will sing and we will dance
If they tell us to put that fire out...

Safe and sound?
I'd rather create the sound
Moving from town to town
Spreading the words that you call disease
And we won't stop till we are sure
The message is clear and understood
We're gonna turn the tide
You're gonna stand here on our side
When they tell us to put that fire out...

Hear this voice
Telling you there's no choice
We're gonna spread our love
Whether you like it - whether you don't
Soon you'll see
Never alone you'll be
We have the right to speak
But we will sing and we will dance
If they tell us to put that fire out...

We'll dance if they tell us to put that fire out...

We're not gonna burn, no!
We will spread our love!
