Tonight

Concrete Blonde

Walking on a cloud to another shore A luminous and beautiful promise of more

Tonight I'll be with you Tonight I'll be with you

Walking through time
Dancing through space
The pearly-gray moon is wearing your face
And tonight I'll be with you
Tonight I'll be with you
Oh I hear your voice
Oh I have no choice I follow

Swinging on a star Flying around This is so bizarre, maybe I better come down

Tonight I'll be with you Tonight I'll be with you

Let's go planet hopping Through the universe There's no stopping us Where to first?

Tonight I'll be with you Tonight I'll be with you
